

John E Vivas

FULLSTACK DEVELOPER

ABOUT ME

Resourceful Fullstack Developer skilled in JavaScript (React, Node.js), Java (Spring), Dart (Flutter), and Python (Django, FastAPI) technologies. Proven ability to design and develop web and mobile applications for independent clients with a solid understanding of both frontend and backend frameworks. Experienced in problem-solving, creative development, and team collaboration, with intermediate English proficiency. Eager to leverage technical expertise and leadership skills in new challenging projects and ready to contribute immediately.
